STEP .01

PREPARATION

STEP 01.

THIS INITIAL PREPARATION STEP FOCUSES ON ALLOWING YOU TO PREPARE YOUR VEHICLE'S SURFACE BY REMOVING RUST AND STRIPPING PAINT.

AUTO ACE

COMING SOON

INTERNAL FRAME COATING

PROTECT AGAINST INTERNAL RUST

Omega Internal Frame Coating is a specialised internal frame coating that converts and encapsulates rust preventing further corrosion in inaccessible areas such as frame rails and body panels where a conventional rust converter can't access.

Part Number: AA-IFC400G
Size: AEROSOL

RUST REMOVER

DEOXIDISER & RUST REMOVER

Omega Rust Remover/Dissolver is a Phosphoric acid based product specially formulated to chemically removes rust from iron and steel leaving a short term protective coating ready for priming and filling. It is suitable for all accessible areas that are to be immediately primed or rust proofed. .

Part Number:	AA-RR250ML	AA-RR500ML
Size:	250ML	500ML

RUST CONVERTER

RUST CONVERTER PRIMER SEALER

Omega Rust Converter Primer & Sealer is a tannic acid based rust converter that converts rust to a black stable primed finish preventing further corrosion. It can be primed, filled and painted over to give additional corrosion proofing or sound deadening.

Part Number:	AA-RCP400G	AA-RCP250ML	AA-RCP500ML
Size:	AEROSOL	250ML	500ML

PAINT STRIPPER

FAST ACTING PAINT STRIPPER

Omega Fast Strip is a fast acting heavy bodied automotive and industrial strength paint remover formulated to rapidly strip automotive paints (including 2 pack) from concrete, glass, masonry, metals and timber.

Part Number:	AA-FS400G	AA-FS1L	AA-FS4L
Size:	AEROSOL	1LT	4LT

WAX & GREASE

PREMIUM WAX & GREASE REMOVER

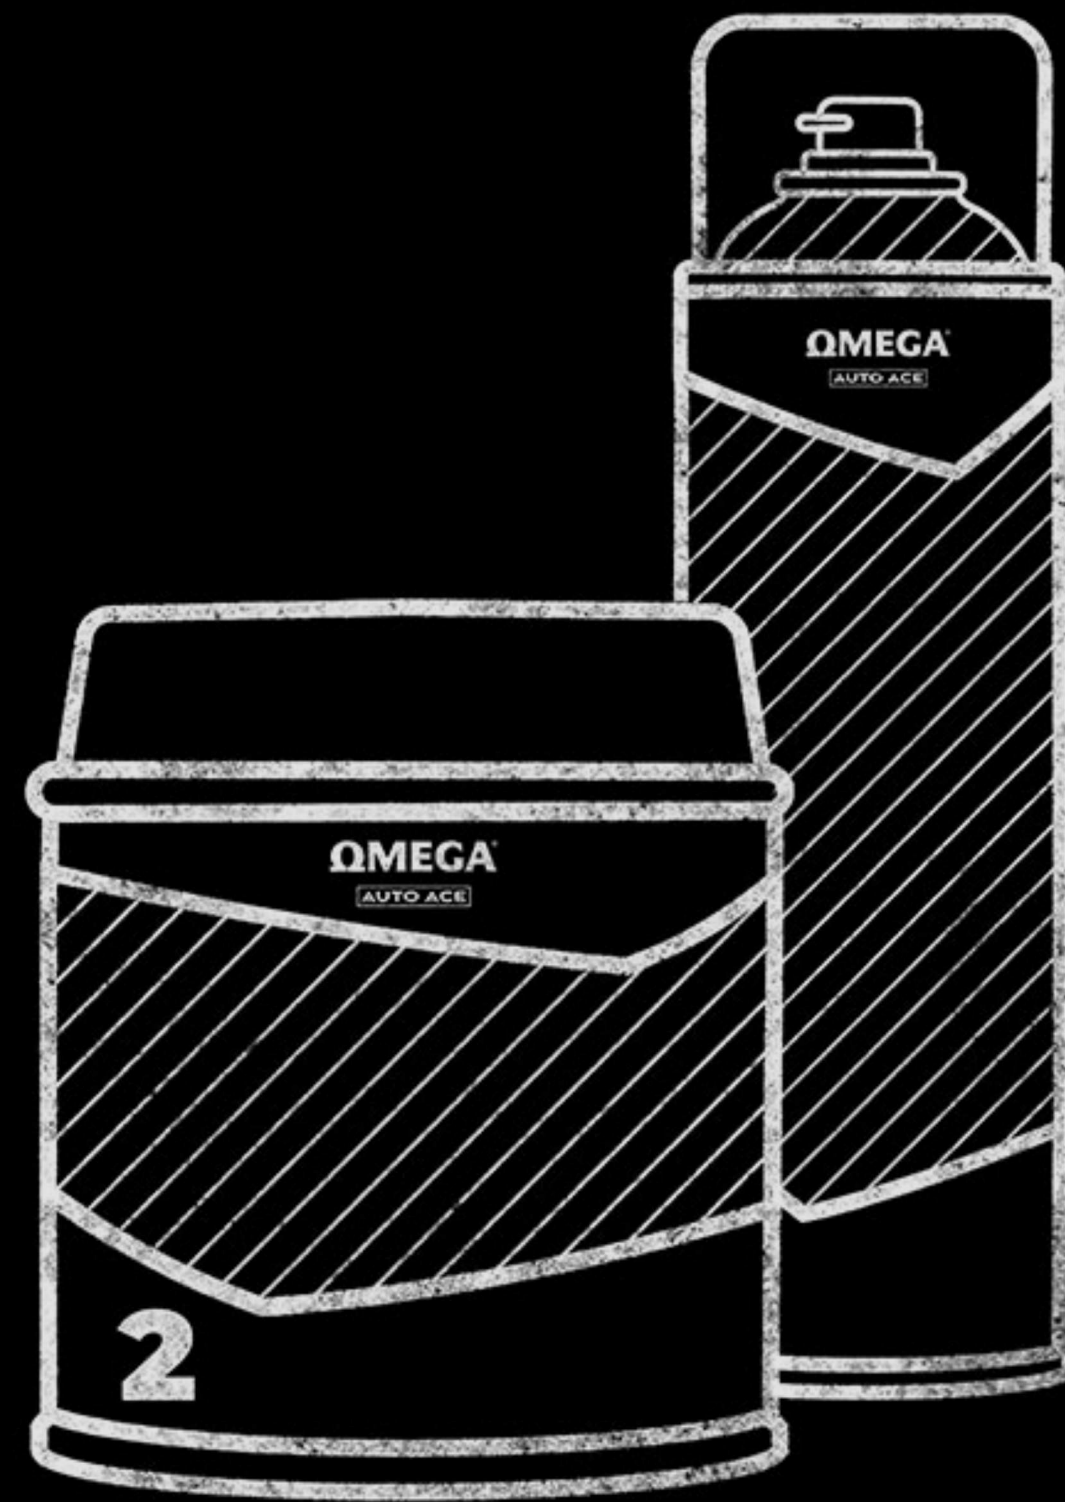

Omega Wax & Grease Remover is a fast acting solvent based cleaner formulated to remove decal adhesive, grease, oil, polish, silicone, tar, wax and most chemical based contaminants from surfaces prior to sealing, filling, priming and painting.

Part Number:	AA-WGR400G	AA-WGR1L	AA-WGR4L
Size:	AEROSOL	1LT	4LT

STEP 0.2
REPAIR

BODY FILLER

LIGHT WEIGHT BODY FILLER

Omega Body Filler is a two part ultra lightweight premium, easy spreading polyester multipurpose filler that sets in 20 minutes forming an easy to sand, tough and smooth finish. It has minimal surface tack for earlier sanding, with easy filling and excellent feathering characteristics. It is designed for use under all automotive primers and paints and is suitable for use in automotive baking ovens under 2 pack paint finishes.

Part Number:	AA-LWF500G	AA-LWFIK	AA-LWF3K
Size:	500G	1KG	3KG

COMING SOON

FINAL GLAZING FILLER

ULTA FINE GLAZING FILLER

Omega Glazing Filler provides the ultimate in glazing putties. A two part premium, ultra fine spray painter grade high density polyester putty formulation, based upon superfine micronised pigments. A fine skim coat is possible for stone chips or where a premium top class finish is required. It is easy filling, dries with minimal to no shrink age and porosity compared to other fillers and easily sands with outstanding feathering characteristics.

Part Number:	AA-FGF500G
Size:	500G

FIBREGLASS FILLER

REINFORCED FIBREGLASS FILLER

Omega Fibre Fill is a two part fibre reinforced multipurpose filler of considerable strength. It sets hard in 20 minutes forming a tough and rigid surface. It can be used as a filler or adhesive and can be coloured, painted, sawn, filed, drilled and nailed. It is suitable for repairing concrete, metal, fibreglass, masonry, plaster, timber and most tiles.

Part Number:	AA-FF500G
Size:	500G

FLEXI FILL

TWO PART PLASTIC FILLER

Omega Flexi Fill is a flexible, polyester fine filler used for filling and finishing repairs to plastic bumpers and components. Flexi Fill is highly flexible and provides a smooth easy to sand finish.. Flexi Fill is suitable for filling rigid plastics such as polypropylene, polyethylene, ABS, PMMA, PVC, polyurethane, polycarbonate and polyester. Not suitable for RIM flexible polyurethane.

Part Number:	AA-FXF500G
Size:	500G

1K ETCH PRIMER

1K ETCH PRIMER

Omega 1k Etch Primer is a ready to spray single pack, quick drying, polyvinyl and zinc phosphate based etch primer for all bare metal surfaces. Omega 1k Etch Primer has excellent adhesion to aluminium, steel, brass, copper, and galvanised steel surfaces.

Part Number:	AA-ETP400G	AA-ETP1L	AA-ETP2L
Size:	AEROSOL	1LT	2LT

HIGH BUILD PRIMER

PREMIUM HIGH BUILD PRIMER FILLER

Omega High Build Primer is a grey one step, fast drying, easy sanding, high build primer and filler designed for priming and filling over bare steel, body filler, stop and finishing putties, fibreglass repairs, scratches, minor surface imperfections and stone chips.

Part Number:	AA-HP400G	AA-HP1L	AA-HP2L
Size:	AEROSOL	1LT	2LT

ACRYLIC PRIMER SURFACER

PREMIUM PRIMER SURFACER

Omega Acrylic Primer Surfacer is a light grey single pack, fast drying, easy sanding automotive primer. Features excellent adhesion, filling properties, smooth leveling, fast drying and is easy to sand.

Part Number:	AA-APSG400G	AA-APSG1L	AA-APSG2L
Size:	AEROSOL	1LT	2LT

PLASTIC PRIMER

CLEAR PLASTIC ADHESION PRIMER

Omega Plastic Primer is a clear, single pack primer designed to bond automotive acrylic lacquers, single pack enamels and 2 pack automotive paints to polypropylene and polyolefin plastics and bumper bars.

Part Number:	AA-PP400G
Size:	AEROSOL

BUMPER PRIMER

PREMIUM BLACK BUMPER PRIMER

Omega Bumper Prime is a high technology formulation with specialised flex aids and adhesion promoters producing a black flexible, rapid drying easy sanding primer designed for priming rigid plastics.

Part Number: AA-BPB400G
Size: AEROSOL

WELD THROUGH PRIMER

PREMIUM ZINC ENRICHED PRIMER

Omega Weld Through Primer is a premium zinc enriched primer designed to restore original corrosion protection to steel panels or structures repaired by welding. Its high zinc content provides a positive weld without splitting.

Part Number: AA-WTP400G
Size: AEROSOL

1K SPOT PRIMER

PREMIUM CHROMATE FREE PRIMER

Omega 1K Spot Primer is a chromate free spot primer with outstanding adhesion properties. Specifically formulated to be a 2 Pack compatible primer surfacer, ideal for small rub through areas. Omega 1K Spot Primer features a fast drying formula that is easy to sand with exceptional adhesion

Part Number: AA-SP400G
Size: AEROSOL

CONTACT ADHESIVE

RAPID SET CONTACT ADHESIVE

Omega Contact Adhesive is an easy to use rapid set, high initial strength adhesive ideal for automotive and marine use. Suitable for bonding a wide variety of surfaces. Including vinyl, leather, paper, cardboard, prints, photographs, artwork, wood, fabric, & more.

Part Number: AA-CA400G AA-CA500ML
Size: AEROSOL 500ML

COLD GAL

COLD GALVANISING PRIMER

Omega Cold Gal is a zinc-rich, cold galvanising primer for long-term, extra heavy duty corrosion protection. Designed to prevent corrosion through galvanic protection by forming a protection barrier, encapsulates the metal in a zinc film.

Part Number: AA-CG400G AA-CG1L
Size: AEROSOL 1LT

FIBREGLASS REPAIR KIT

COMPLETE FIBREGLASS REPAIR KIT

Omega Fibreglass Repair Kit contains everything you need to repair holes and cracks in most surfaces including fibreglass, steel, automotive panels, boats, wood, masonry and other rigid materials.

Part Number: AA-FGR250ML
Size: 250ML KIT

FIBREGLASS RESIN

REPAIR CRACKS, DENTS, HOLES & MORE

Omega Polyester Resin combines with fibreglass to form a strong rigid structure ideal for the repair of holes and cracks in fibreglass, steel, aluminium, panels, boats, wood, masonry and other rigid materials.

Part Number: AA-FR500ML
Size: 500ML

FIBREGLASS MATTING

.5 SQM FIBREGLASS MATTING

A fibreglass chopped strand mat 300gm/m2, size 1m x 0.5m, when used in conjunction with polyester resin forms a strong rigid structure ideal for the repair of holes and cracks.

Part Number: AA-FM5SQM
Size: .5 SQM

FIBREGLASS CATALYST

OMEGA MEKP CATALYST

Omega MEKP Catalyst is a hardener/catalyst for use with polyester resin and fibreglass to repair holes and cracks.

Part Number: AA-C20ML
Size: 20ML

ACETONE

FAST EVAPORATING CLEANING SOLVENT

Omega Acetone is a premium grade solvent suitable for cleaning surfaces prior to application. Omega Acetone is also ideal for removing Fibreglass Resin and paint from tools, brushes & much more.

Part Number: AA-AC500ML
Size: 500ML

WINDSCREEN SEALER

NON SAGGING, DURABLE SEALER

Omega Windscreen sealer is a synthetic rubber mastic compound that offers a highly durable, non-sagging permanently flexible seal. ideal as a sealer for windcreens between rubber gaskets and glass. Easy application by cartridge gun.

Part Number: AA-WS490G
Size: 490G

ADHESIVE & SEALANT

POLYURETHANE ADHESIVE SEALANT

Omega Polyurethane Adhesive sealant is a single component, high performance fast curing adhesive and sealer formulated to provide a flexible and durable seal. Suitable for bonding/sealing sheet metal, aluminium, stainless steel, timber, ceramics, masonry, concrete, brick, and most plastics.

Part Number: AA-PAS380G
Size: 380G

SEAM SEALER

BRUSH ON SEAM SEALER

Omega Seam Sealer is a water proof sealant which dries quickly at room temperature and retains permanent elasticity and will not run or crack. Formulated for sealing spot welded joints or bolted coach joints such as floor pans and wheel arches. Suitable for filling gaps in lap joints and seams to protect against moisture and rust, ideal for sealing tail light and head light openings and much more. Can be applied over bare steel, primer or painted surfaces. The final appearance is similar to the original OEM finish.

Part Number: AA-SS1L
Size: 1LT

GLOSS BLACK

PREMIUM ACRYLIC LACQUER FINISH

Omega Acrylic Lacquer Gloss Black is a premium quality single pack topcoat, designed to provide a premium finish with excellent adhesion and durability. Suitable for automotive metal parts, panels, motor bike parts, bicycles, & marine

Part Number:	AA-ALGB400G	AA-ALGB1L	AA-ALGB2L
Size:	AEROSOL	1LT	2LT

MATT BLACK

PREMIUM ACRYLIC LACQUER FINISH

Omega Acrylic Lacquer Matt Black is a premium quality single pack topcoat, designed to provide a premium finish with excellent adhesion and durability.

Part Number:	AA-ALMB400G
Size:	AEROSOL

GLOSS WHITE

PREMIUM ACRYLIC LACQUER FINISH

Omega Acrylic Lacquer Gloss White is a premium quality single pack topcoat, designed to provide a premium finish with excellent adhesion and durability.

Part Number:	AA-ALGW400G	AA-ALGW1L	AA-ALGW2L
Size:	AEROSOL	1LT	2LT

SATIN BLACK

PREMIUM ACRYLIC LACQUER FINISH

Omega Acrylic Lacquer Satin Black is a premium quality single pack topcoat, designed to provide a premium finish with excellent adhesion and durability. Suitable for automotive metal parts, panels, motor bike & much more.

Part Number:	AA-ALSB400G
Size:	AEROSOL

TOP COAT CLEAR

PREMIUM ACRYLIC LACQUER FINISH

Omega Acrylic Lacquer Top Coat Clear is a premium quality single pack topcoat, designed to provide a premium high gloss finish with excellent adhesion and durability. Suitable for automotive metal parts, panels, motor-bike parts, bicycles, marine and around the house.

Part Number:	AA-TCC400G	AA-TCC1L	AA-TCC2L
Size:	AEROSOL	1LT	2LT

SUBFRAME BLACK

ALL PURPOSE RUST & CHIP RESISTANT

Omega Subframe black is a quick drying, semi-gloss all-purpose rust and chip resistant epoxy based paint designed for painting subframes, chassis, radiators, automotive components, & most surfaces requiring a rust and chip resistant finish.

Part Number:	AA-SB400G	AA-SB1L	AA-SB2L
Size:	AEROSOL	1LT	2LT

BUMPER & TRIM BLACK

RENEW & RESTORE OEM FINISHES

Omega Bumper & Trim Black renews and restores the OEM finish found on most vehicles. It is a semi flexible, quick drying acrylic lacquer specially formulated for bumpers and plastic parts.

Part Number:	AA-BTB400G
Size:	AEROSOL

WHEEL SILVER

HIGH PERFORMANCE WHEEL COATING

Omega Wheel Silver is a premium quality tough gloss wheel coating formulated to resist corrosion, chipping and brake dust. it is suitable for use on steel and alloy wheels and plastic wheel covers.

Part Number:	AA-WS400G
Size:	AEROSOL

SOUND DEADENER

UNDERBODY SOUND PROTECTION

Omega Sound Deadener is a flexible bitumen-based coating for sound deadening and protection against corrosion, dust, moisture, and abrasion. Requires no primer or topcoat. Remains flexible.

Part Number:	AA-SD400G	AA-SD1L	AA-SD4LL
Size:	AEROSOL	1.15LT	4LT

ROLL BAR BLACK

TOUGH DURABLE FINISH

Omega Roll Bar Low Gloss Black is an exceptionally tough and durable crack, chip, peel, and corrosion resistant coating. It is specially formulated to fill scratches and pin-holes and dry evenly to a factory finish.

Part Number:	AA-RBSB400G
Size:	AEROSOL

PRO-FLOW

PRO-FLOW MULTIPURPOSE THINNERS

Omega PRO-FLOW Multipurpose Thinner is a premium quality multipurpose thinner designed to achieve optimal performance for spray applications.

Part Number:	AA-PMT1L	AA-PMT4L
Size:	1LT	4LT

UNDERBODY SOLVENT BASED

PREMIUM UNDERBODY PROTECTION

Omega Stone Guard is a solvent based flexible textured underbody coating for protection against salt, moisture, rust, and general road abrasion. ideal for use in the repair of underbody area's.

Part Number:	AA-SGSB400G	AA-SGSG400G	AA-SGSB1L
Size:	AEROSOL	AEROSOL	1.15LT

ACRYLIC THINNER

PREMIUM ACRYLIC THINNER

Omega Premium Acrylic Thinner is a formulation of premium quality solvents designed for optimal performance and to aid flow, gloss, and overspray melt-in.

Part Number:	AA-AT1L	AA-AT4L
Size:	1LT	4LT

UNDERBODY WATER BASED

PREMIUM UNDERBODY PROTECTION

Omega Stone Guard is a water based flexible textured underbody coating for protection against stone chips and general road abrasion. Ideal for underbody areas.

Part Number:	AA-ACWB1L
Size:	1.15LT

GUNWASH

PREMIUM CLEANING THINNER

Omega Gunwash is specially formulated to clean acrylic paints, enamels, and lacquers from spray guns and painting equipment.

Part Number:	AA-GW4L
Size:	4LT

ENAMEL THINNER

PREMIUM ENAMEL THINNER

Omega Enamel Thinner is a premium blend of quick evaporating solvents specially formulated for quick dry enamels, primers, and hammer-tone.

Part Number:	AA-ET1L	AA-ET4L
Size:	1LT	4LT

STEP 04.

THE OMEGA AUTO ACE PROTECTION LINE
IS DESIGNED TO PROTECT YOUR VEHICLE
FROM EXISTING RUST PROGRESSING OR CREATING
A PROTECTIVE BARRIER BEFORE IT EVEN BEGINS.

AUTO ACE

STEP 0.4

PROTECTION

FISH OIL

DEODORISED FISH OIL

Omega Fish Oil is a deodorised, long lasting, rust inhibiting coating suitable for automotive, marine, household and industrial applications. Fish Oil Compound penetrates through rust and inhibits further corrosion.

Part Number:	AA-FO400G	AA-FO1L
Size:	AEROSOL	1LT

CAVITY RUST INHIBITOR

RUST & CORROSION PROTECTANT

Omega Rust Inhibitor is a heavy duty wax coating for rust and corrosion prevention. It dries to a flexible, non-sticky, water repellent film.

Part Number:	AA-CRI400G	AA-CRI1L
Size:	AEROSOL	1.15LT
